We have just finished building a new website through Marketing Sweet for Signature Painters, along with implementing an SEO campaign. In particular, Taylor and Harry have been a dream to work with – they are both extremely helpful, flexible, responsive and knowledgeable. You can tell they really care about doing the best job possible for their clients and they really worked in partnership with me throughout the design, content and build of the website. Their attention to detail and the initiative they took with making tweaks to the website throughout the build stage was also excellent. The new website is such an improvement in terms of overall look and feel, content and navigation – we are very happy with the end result. In just a couple of months, we have also seen a great improvement in our SEO for key search terms and I'm sure this will only continue with the launch of our fantastic new website last week. I would happily recommend Marketing Sweet to anyone looking for a range of digital services. Thanks again for all your help Taylor, Harry and the broader team!

I have always been sceptical when been approached by marketing companies ever since I started my business, but I'm glad I took the chance on marketing sweet. In the first month I am already seeing results with increased phone call volume in my targeted areas. The team are friendly to deal with and genuinely care about the money you've invested in them to achieve the best results they possibly can for you.

We were looking for a business to give Adelaide Expo Hire's website a complete refresh and took our ideas to Marketing Sweet. From the very beginning, Marketing Sweet understood what we were trying to achieve and offered many new ideas and suggestions on how we could create an engaging and functional website. We wanted to ensure that the new website reflected our offerings in a modern and effective way, with site navigation as a central focus. Marketing Sweet's process has been well thought out and it gave us a clear timeline of actions in the lead up to the final reveal. It was a very exciting day when the site went live and the results just speak for themselves!

Lola and her team were fantastic from start to finish. They really helped me understand the process involved with building the website and made sure all our needs were met. They went up and over with their service, even when we needed to make changes they were very responsive. And there were a lot because we are very fussy with what we want and the team at Marketing Sweet didn't disappoint. Our team would highly recommend Marketing Sweet for your website, we are getting another one done through them again in the near future!

Great company based in Adelaide. Helped me out significantly getting my Google Ad Campaign up and running so smoothly. Taylor and Lucas are a wealth of knowledge in SEO which enabled me to receive instant results with new clients to my practice Foot & Sole Podiatry in the first week of the campaign. A big shout out to Thomas who has ensured my website is managed well and any edits required are performed with no hassle.

I truly believe that Marketing Sweet are the best website and digital marketing company around! From our first website consultation Scott created a vision for our company website and implemented that vision to perfection. Scott and his team's customer service skills and patience are second to none and nothing was too much trouble for them at any stage during our website build. When my personal workload delayed the website build progress Scott was more than understanding and willing to work around my schedule.

The end product of our website was exactly what we asked from the start and finished to an incredibly high standard. The handover period and after sales service has been top notch and nothing has been too much trouble for them.

I fully recommend Marketing Sweet to any business that is looking for a high quality website from a company that places such high value on providing exceptional customer service.

I run a small personal training business. I reached out to Marketing Sweet about 9 months ago to help me build a website that matched my personality, business goals and that could grow as my business grows. The whole team were amazingly helpful and extremely patient with me. During that time I'd had an accident that made it hard for me to do a lot of things. Marketing Sweet checked in with me and continued work as best they could while I got back to it. My website is amazing, looks better than I expected and matched me perfectly. Customer service is extremely important to the folks at Marketing Sweet and they certainly know how to make each person/business feel unique and valued. They took the time to understand me and my business which has resulted in a fantastic results! Would 100% recommend!

Marketing Sweet made the entire process simple and easy to navigate. It was my absolute privilege to get to work with Sam Indivara. She was so creative and patient in the website design process. She worked with what I came to the table with and never hesitated to give me alternate suggestions and support. Coming from a corporate background I was very clear what I wanted and why and Sam was able to navigate this with the greatest of ease. I learn so much during the process due to Sam's approach and willingness to educate.

I contacted Marketing Sweet as they were a local company here in Adelaide to create and manage a website for my business. From the first meeting with the owner Corie to the ongoing meetings with his staff everyone was professional and understanding. The finished product looks great and is efficient and effective to use and overall I am very pleased. The process has been very straight forward and has been completed in a timely manner. I am very pleased with Marketing Sweet to date and will definitely be referring them in the future.

I'm just your average small business owner in Adelaide trying to make it big time. Aren't we all? I initially started my business up with the intention of creating my own website. **BIG MISTAKE!**

It wasn't long before the Fresh 92.7 FM adds broke me and I finally made a call to Marketing Sweet and set up a meeting with Corie. Thank the world I did. My dream and vision of what I wanted my business to be was soon brought to life in the most exciting way possible. I was set up with an amazing team (Henry & Sam - great job guys, Corie owes you two a raise) and they were absolutely fantastic.

I'm certainly a very picky person and I tell you what, every job, no matter how big or small, was completed basically as soon as I requested and was done without any questions asked. The most accommodating people ever.

If you're thinking about other web designers or doing your own website, let me tell you now, stop wasting your own time and just go to Marketing Sweet. Absolute best in the business and will be recommending their services to anyone I can. Thanks for everything guys!

Marketing Sweet assisted in the re-development of the It's Up 2 Me, website that is also linked with a free mobile App. During the management of the project, the team demonstrated a commitment to the timelines, budget and the understanding required to support the people this website helps. There were some challenges during the project delivery, as you would expect however this was also managed well by the entire team, who went above and beyond to assist us when these challenges arose and to ensure they were resolved. We are grateful to Marketing Sweet for their support during this time, which has seen the relaunch of this website, supporting our community. Thank you from It's Up 2 Me, UnitingCare Wesley Bowden (UCWB).

Brilliant! Corie was very helpful in this initial consult, listening to and understanding my issues and objectives. It was quickly apparent that Corie had a wealth of experience and could easily relate to the challenges of a start-up business. He was also very generous with his ideas and advice, with no pressure to "sell" - but simply to be helpful - and in doing that, he demonstrated that he "knows his stuff". It is easy for someone to give a sales pitch with "smoke and mirrors", but those who have true knowledge can easily consult on the spot and provide immediate value - something that I can relate to in my own area of expertise in physique transformation. Corie cut to the core focus and provided great insight and clarity, showing his expertise from experience "at the coal face".

I first came in to contact with Corie over 12 months ago and together with the team at Marketing Sweet my experience has been great. His knowledge and professionalism is second to none. The quality of what was delivered is high and was on time with no worries or fuss along the way. If you are like me and struggle when it comes to the digital world, I would recommend Corie & Marketing Sweet for an easy website/online experience.

Thank you Lara your review is greatly appreciated. We always enjoy working with start ups, I have probably launched over 30 start-ups and I can offer lots of value in this area as I have personally been in business for over 10 years and made plenty of mistakes that I can help people avoid that are costly financially and on time. Cheers Corie

I run a small personal training business. I reached out to Marketing Sweet about 9 months ago to help me build a website that matched my personality, business goals and that could grow as my business grows.

The whole team were amazingly helpful and extremely patient with me. During that time I'd had an accident that made it hard for me to do a lot of things. Marketing Sweet checked in with me and continued work as best they could while I got back to it.

My website is amazing, looks better than I expected and matched me perfectly. Customer service is extremely important to the folks at Marketing Sweet and they certainly know how to make each person/business feel unique and valued.

They took the time to understand me and my business which has resulted in a fantastic results! Would 100% recommend!

I run a small business that is involved in conservation and got in touch with Corie wanting to change web designers and get a new site built. From the start I knew I made the right choice. Very happy with the new website and it's functionality and the staff at Marketing Sweet have been great. Corie and the people at Marketing Sweet aren't just interested in making a profit and will do their part to make a difference by helping worthy causes, so cheers to you all.

Hey Dustin

Thank you so much for your kind review. Your organisation, for me, was something I really wanted to support. That's why I offered to donate your entire project. I have now donated over \$50,000 in work, this includes over 8 charities and organisations. My vision is to help more charities and organisations like yours so you can continue doing your great work.
